## Overview of ICT Activities

### 1. Internet Governance Workshop

**Tuesday 14<sup>th</sup> to Wednesday 15<sup>th</sup> June, 2011 - *Registration required***

The Diplo Foundation is a non-profit organization that works to promote the participation of stakeholders, particularly from developing countries, in the ICT Policy and IG debate. Diplo will be hosting a Workshop on the topic of Internet Governance. The programme also facilitates community-building among individuals with different national, cultural, and professional backgrounds.

### 2. Caribbean ICT Roadshow-Nevis

**Tuesday 14<sup>th</sup> June, 2011**

The Caribbean ICT Roadshow initiative has been developed by the CTU to raise awareness within the public sector, the private sector, civil society and academia of the need for innovation in embracing ICT effectively in all sectors in order to promote social and economic development. The Roadshow initiative adopts a unique approach, linking the dissemination of information to activities that will reinforce the message and produce tangible benefits for the citizens of St. Kitts and Nevis.

The Nevis Roadshow will feature sessions explaining information and communication technologies, how to protect digital assets, parenting the digital generation and the many features of mobile devices. The Nevis Roadshow will conclude with an open forum designed to allow participations to ask questions about ICT products and services.

### 3. The Caribbean ICT Roadshow: Youth Forum - Nevis

**Tuesday 14<sup>th</sup> June, 2011**

Special emphasis will be placed on the youth of the nation and their keen affinity to ICT in the Youth Forum, which will seek to educate and promote responsible and beneficial use of ICT and Internet resources. There will be sessions that will point to the dangers in cyberspace and will introduce parents and guardians to important issues relating to their children's interactions in cyberspace.

## Overview of ICT Activities (Continued)

**Caribbean Innovation  
& Entrepreneurship**

### 4. CTU Caribbean ICT Innovation and Entrepreneurship (I&E) Workshop

**Wednesday 15<sup>th</sup> to Thursday 16<sup>th</sup> February 2011 - *Registration required***

CTU recognises the leading role that ICT plays across all sectors of our economy and the need for innovation in realising ICT's potential to transform existing industries, create new ones, enhance the Region's competitiveness, assist with solutions to environmental problems, and enhance social inclusion. This Innovation and Entrepreneurship Workshop seeks therefore to support Caribbean innovators by educating and inspiring them to commercialise their ideas. This practical two-day Workshop will be delivered in two parts:

#### **i) A Framework for Innovation**

During the first day our speakers will examine the concepts, thought processes and problem solving techniques that make true innovation possible. Through engaging the audience on real issues and taking into account their personal circumstances, the team will seek to find answers to common problems which entrepreneurs face and walk the audience through simple step-by-step exercises designed to promote ideas which will lead to commercial success.

#### **ii) Becoming an Entrepreneur**

Day two will consist of a series of interactive exercises which will encourage the audience to engage and participate in driving their vision forward. They will be encouraged to become constructively critical of their own ideas; to examine new ways to source financing; to learn from the experiences of others in business; to create mutually beneficial strategic partnerships; to identify and acquire the skills they personally lack and to cultivate a determination to move forward.

Delegates whose ideas receive favourable review will be awarded special prizes and will be invited to participate in follow-up assessment sessions with the facilitators which will be scheduled on Friday 18<sup>th</sup> June, 2011. These delegates may also benefit from additional training, internships, mentorship programmes, guidance, research and business support to enable them to commercialise their ideas and to establish sustainable ICT-businesses.

## Overview of ICT Activities (Continued)

### 5. The Caribbean ICT Roadshow - St. Kitts

Thursday 16<sup>th</sup> to Friday 17<sup>th</sup> June, 2011

The Caribbean ICT Roadshow continues in St. Kitts with sessions that address the following topics:-

- Internet Governance
- ICT in Government
- Hot Seat Discussion Panel: “Does The Consumer Really have a Choice?”
- Innovators’ Forum
- Safety in Cyberspace
- Mining the Internet

### 6. The Caribbean ICT Roadshow: Youth Forum – St. Kitts

Thursday 16<sup>th</sup> and Friday 17<sup>th</sup> June, 2011

The Youth Forum will be held on both days of the St. Kitts Roadshow initiative. The programme will feature a number of interactive sessions designed to educate and promote responsible and beneficial use of ICT and Internet resources. Like the Nevis programme, there will be special emphasis of the dangers in cyberspace and information for parents and guardians.

### 7. Caribbean Network Operator’s Group

Thursday 16<sup>th</sup> and Friday 17<sup>th</sup> June, 2011

The Caribbean Network Operators Group (CaribNOG) is a community of Network Operators dedicated to exchanging technical information and experiences related to the management of IP networks in the Caribbean region. CaribNOG conferences provide a forum for the coordination and dissemination of technical information related to networking technologies, research and operational practices. The meetings are informal, with an emphasis on practical solutions, training and insight relevant to the region.

In St. Kitts, expert speakers from the regional and international technical community will be conducting hands-on workshops, in-depth tutorials and presentations on the following topics:

- Introduction to DNSSEC
- BGP Routing
- Advanced Network Design
- Securing Networks
